Step 3:

- A verification link will be sent to you mail-ID that you have specified and verify the mail-Id
- You will ask to set-up the Username and Password.
- Once it is completed you can login into Snowflake using the credentials

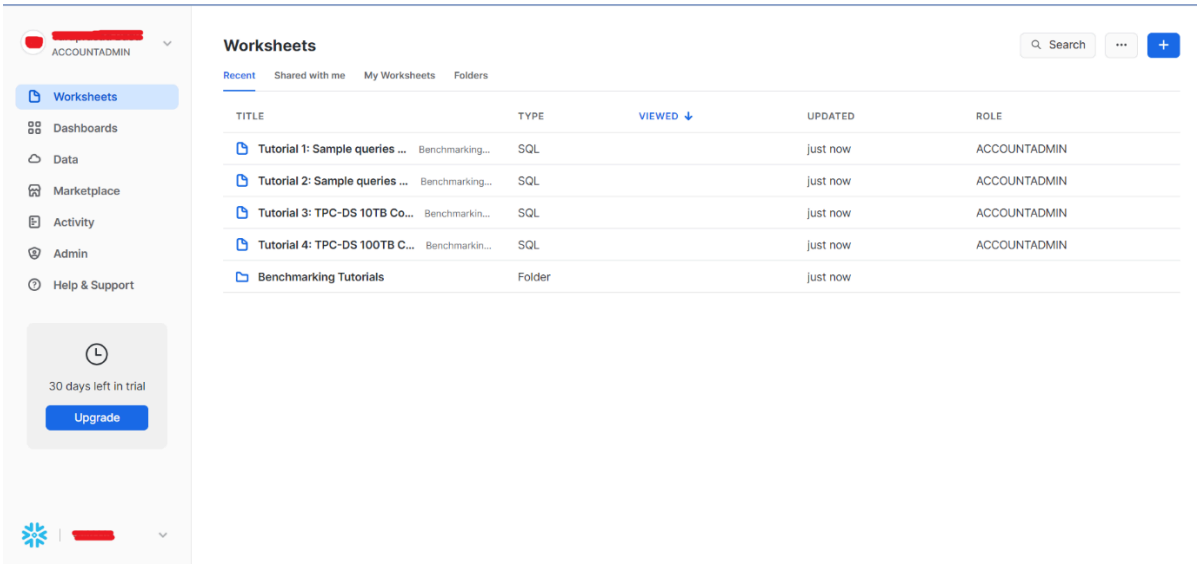

- You are into your Snowflake Cloud Account

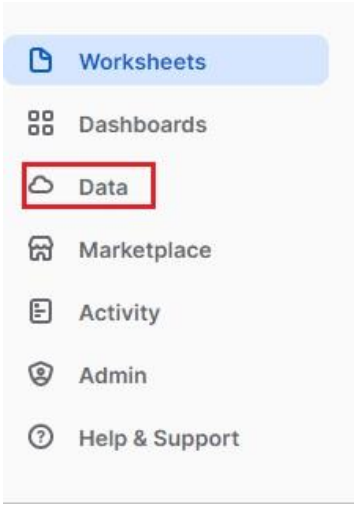

Step 6: Create a Cloud Storage Integration in Snowflake

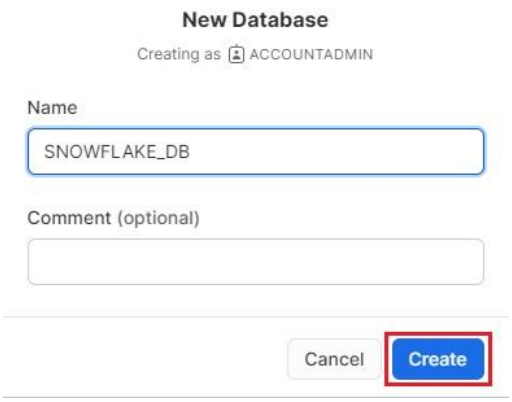

- Go to the snowflake console

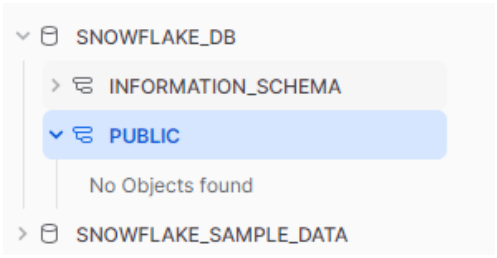

- Now click on Data.

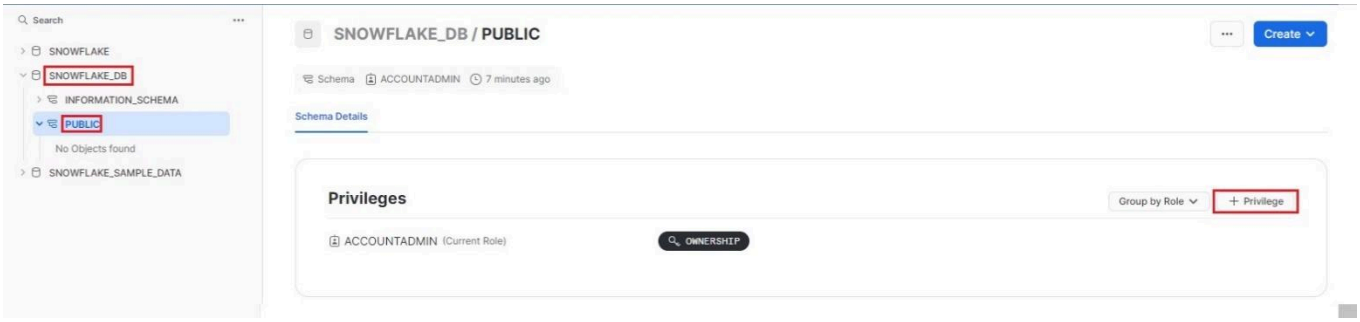

- Create a new Database.

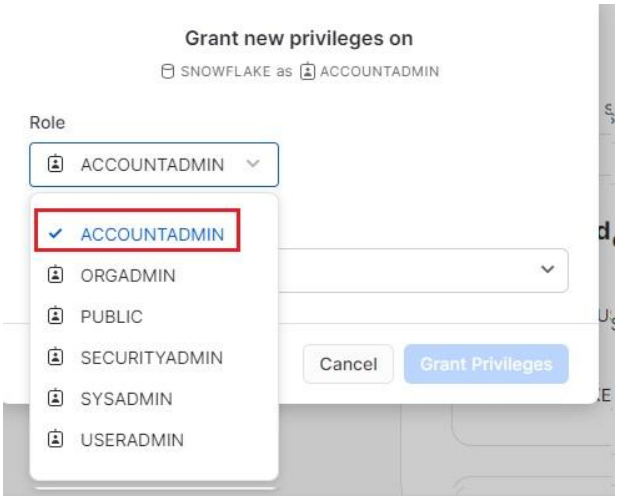

- Then click on the Database.

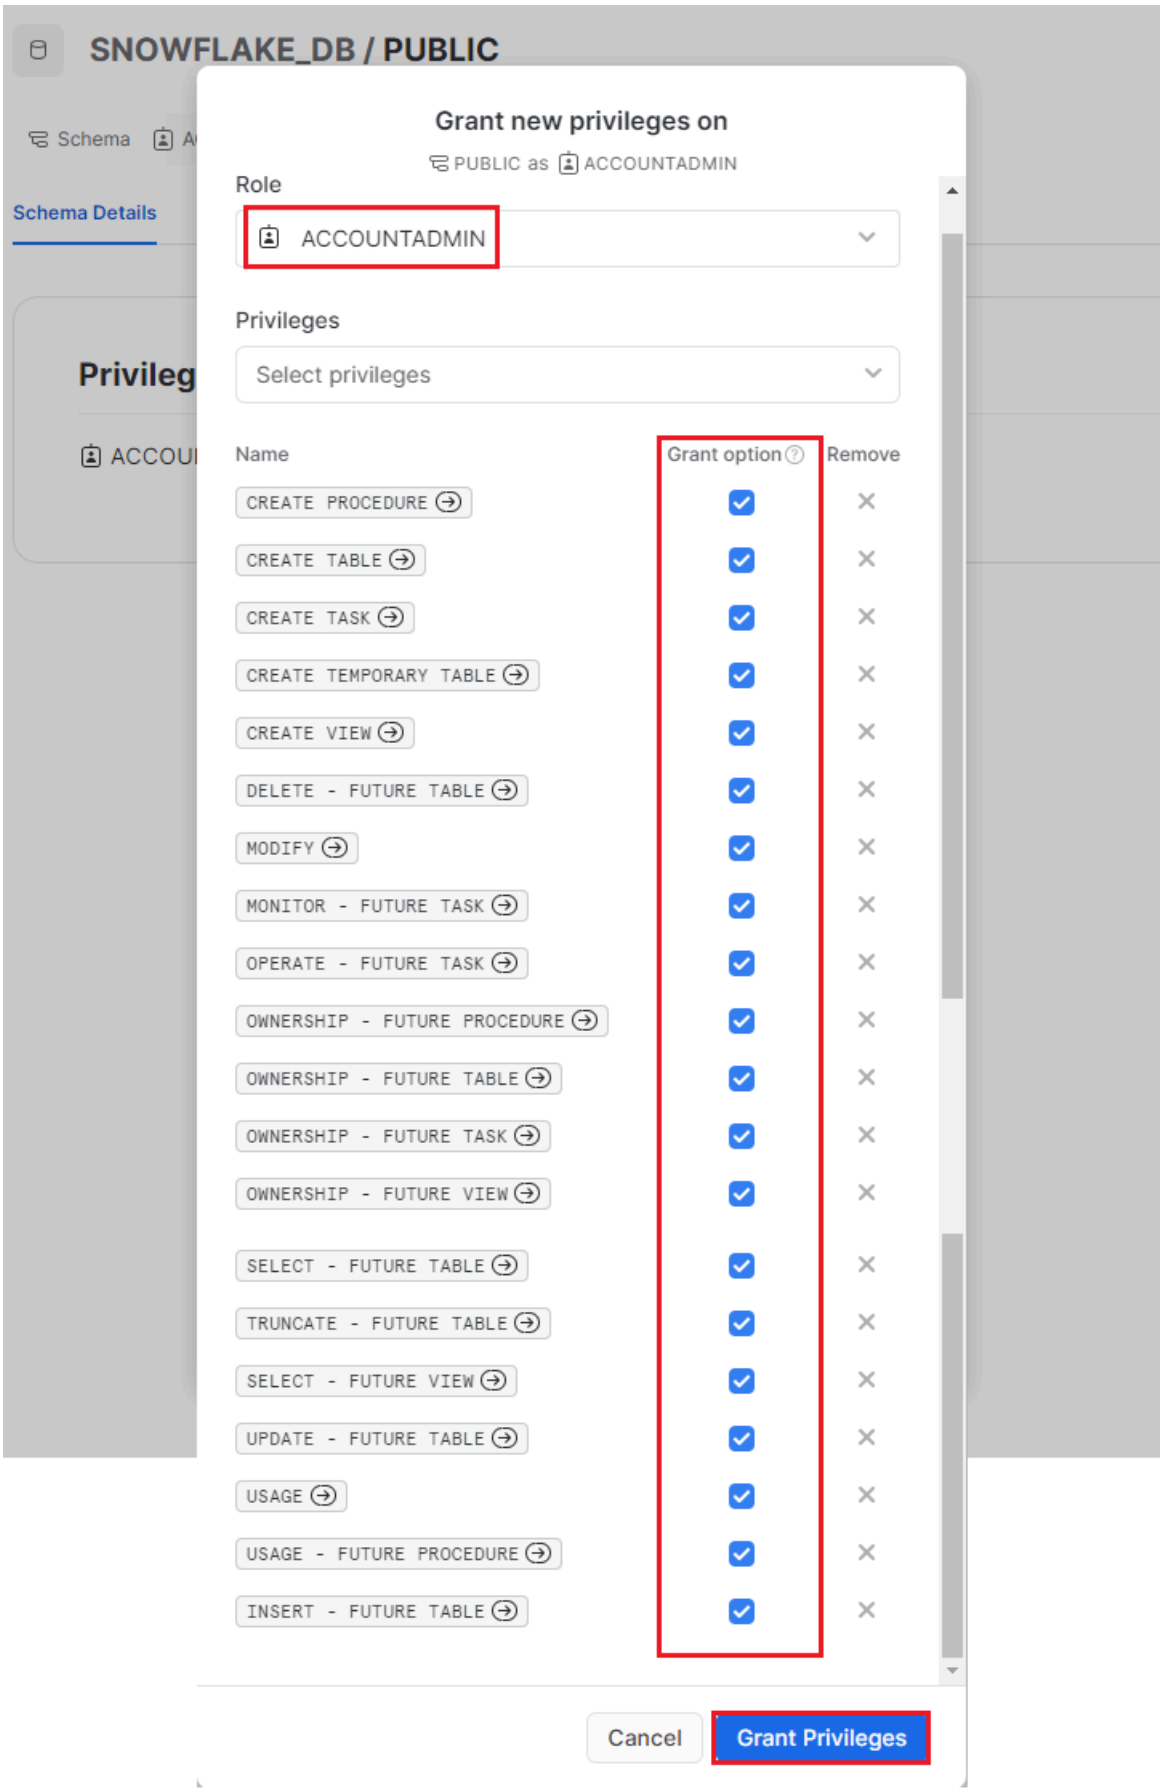

- Click on Public. After that click on Privilege.

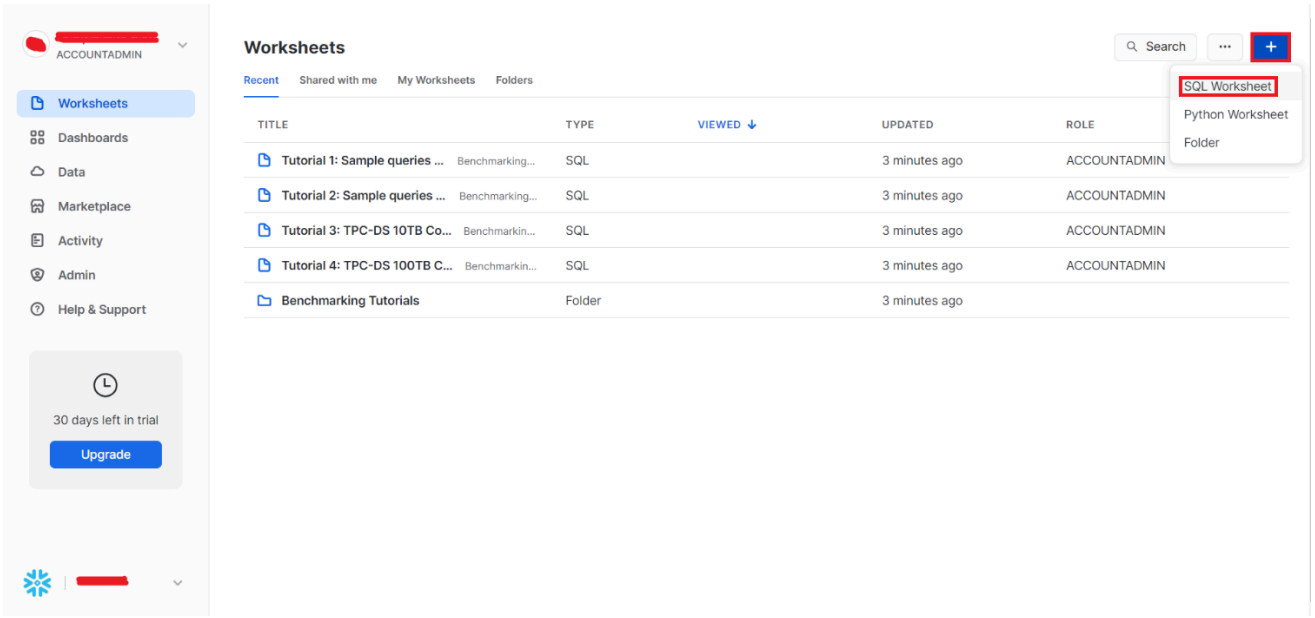

- Now click to add privilege. Select role AccountAdmin.

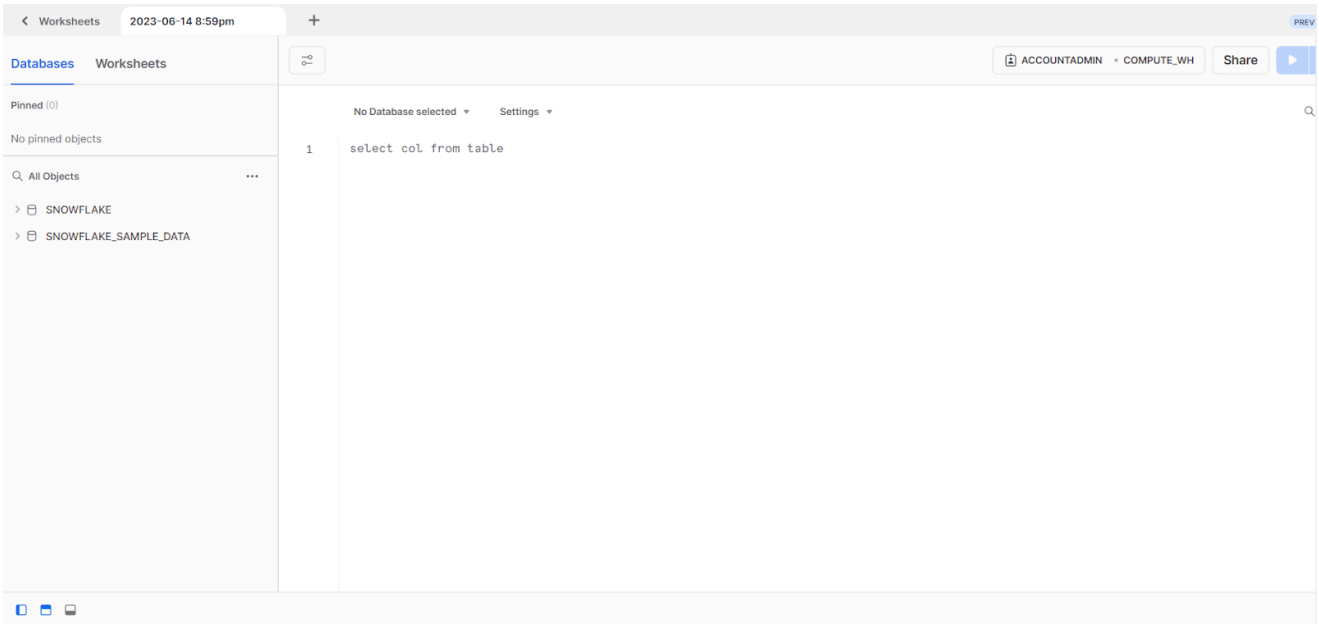

- First add the below three privilege. Click on Grant Privilege to proceed.

SNOWFLAKE_DB / PUBLIC
Schema
Schema Details
Grant new privileges on
PUBLIC as ACCOUNTADMIN
Role
ACCOUNTADMIN
Privileges
Select privileges
Name
Grant option
Remove
CREATE PROCEDURE
CREATE TABLE
CREATE TASK
CREATE TEMPORARY TABLE
CREATE VIEW
DELETE - FUTURE TABLE
MODIFY
MONITOR - FUTURE TASK
OPERATE - FUTURE TASK
OWNERSHIP - FUTURE PROCEDURE

OWNERSHIP - FUTURE VIEW
SELECT - FUTURE TABLE
TRUNCATE - FUTURE TABLE
SELECT - FUTURE VIEW
UPDATE - FUTURE TABLE
USAGE
USAGE - FUTURE PROCEDURE
INSERT - FUTURE TABLE
Cancel
Grant Privileges

- Click on the Worksheets. Then click on the + sign on the top right corner, select SQL Worksheet to create a new worksheet.

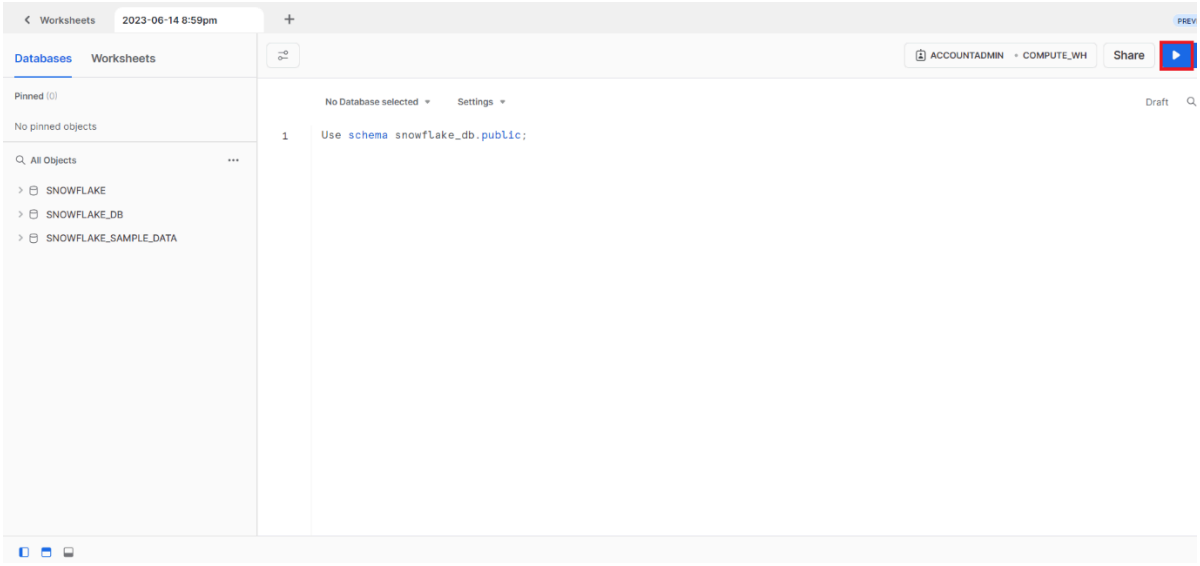

- You will land on the worksheet page like below.

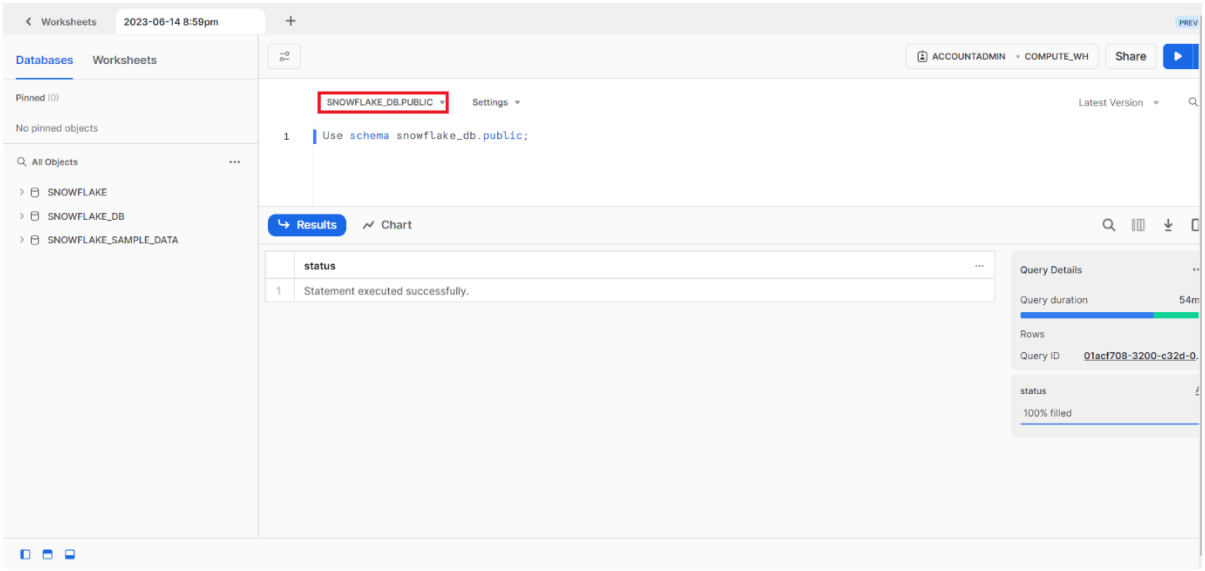

- Now run the below command. Select your database & schema first:

Use schema snowflake_db.public;

Run the above command by clicking on the play buton on the right top corner.

After you run, notice the change in the database name.

VOILA! YOU HAVE SUCCESSFULLY SETUP THE SNOWFLAKE
