## Tableau Desktop Setup

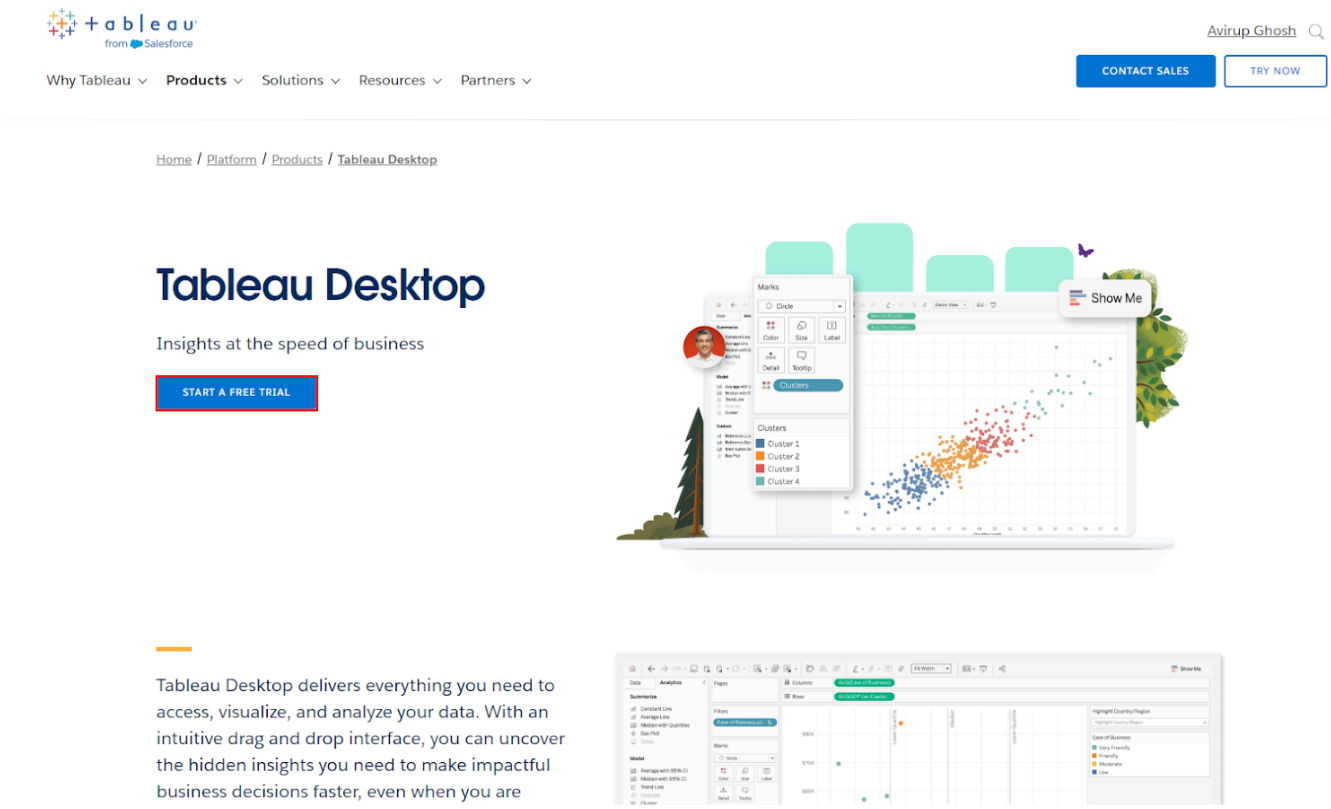

**In this document we are going to setup Tableau Desktop.**

### Step 1

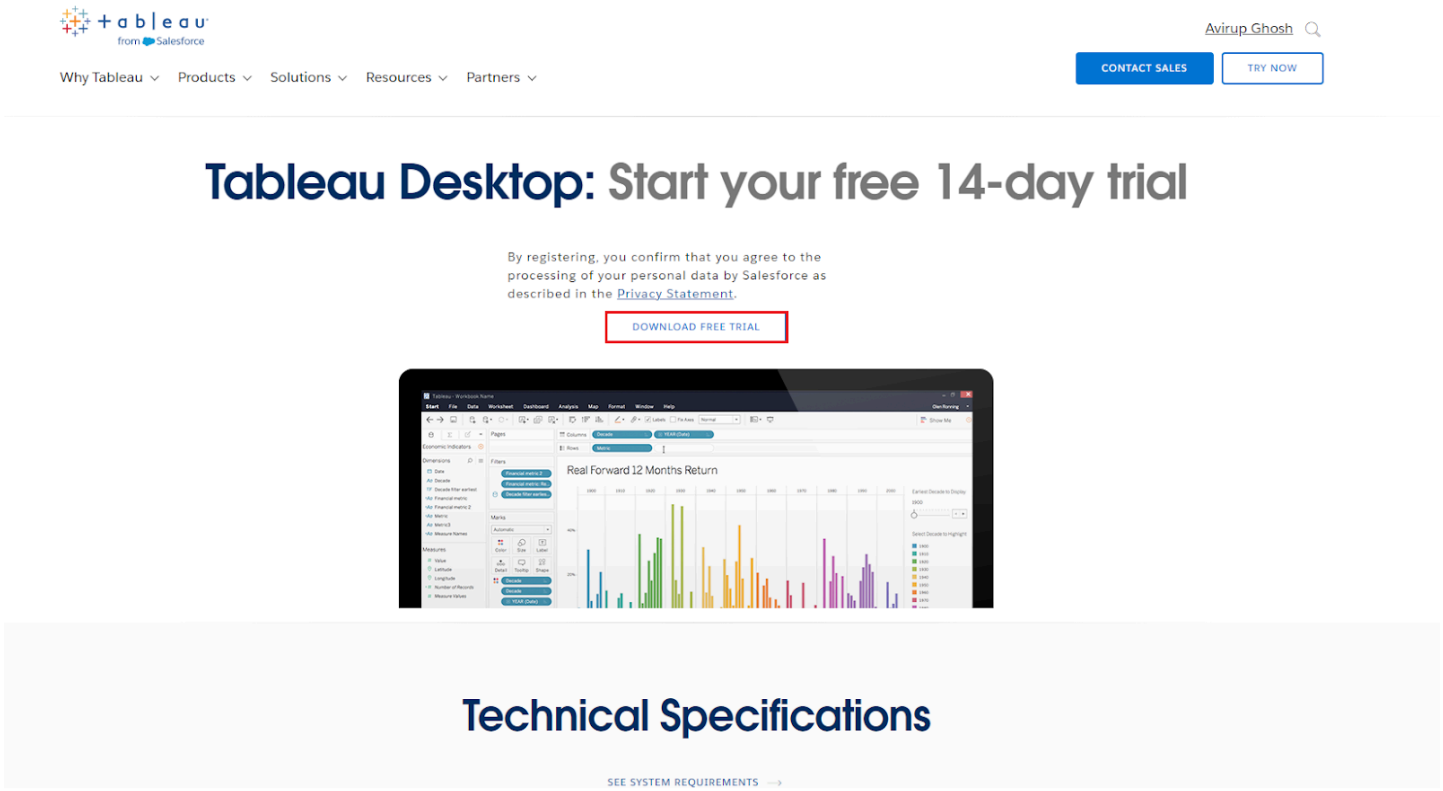

- **Go to [https://www.tableau.com/products/trial](https://www.tableau.com/products/trial)**
- **Hover over Products and the click on Tableau Desktop from the list.**

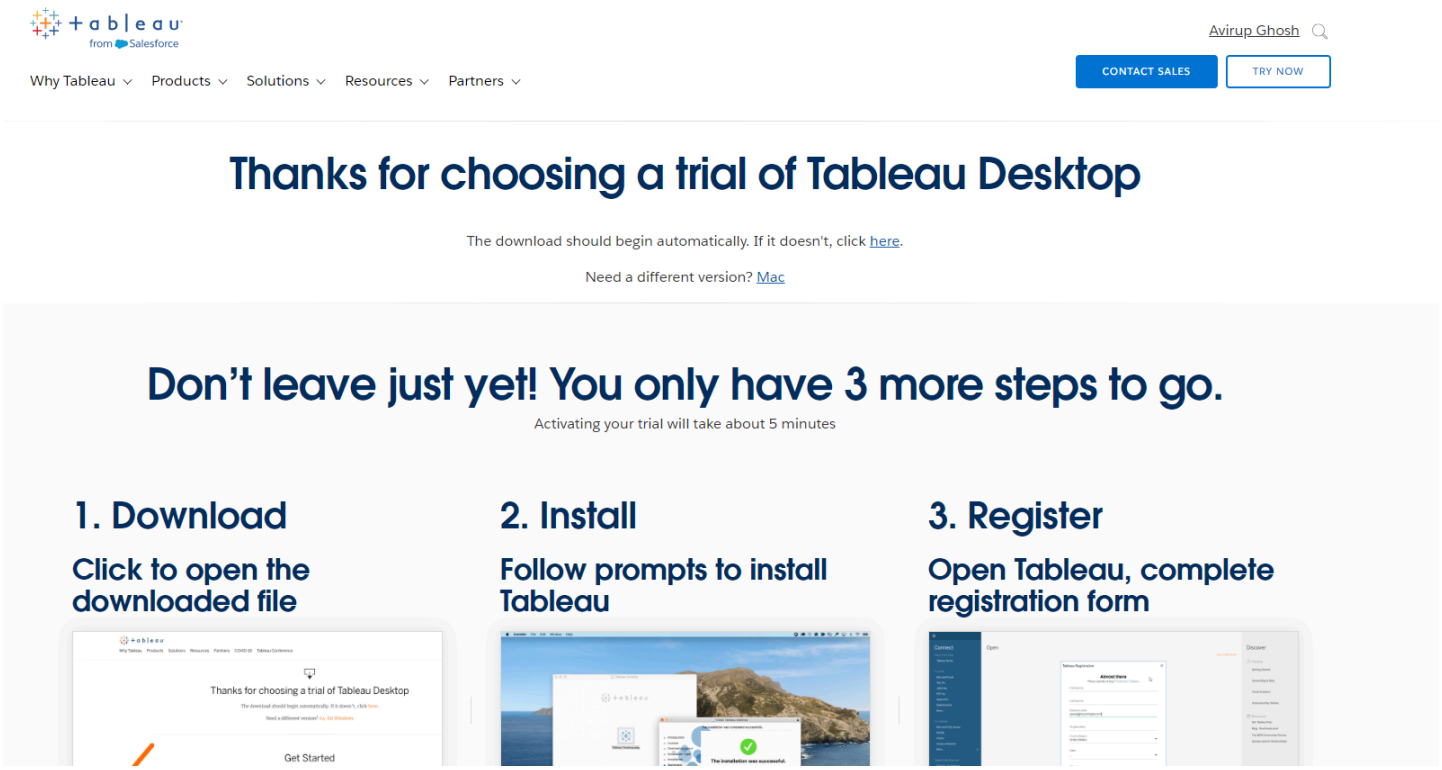

**Now on the next page click on Start a free trial.**

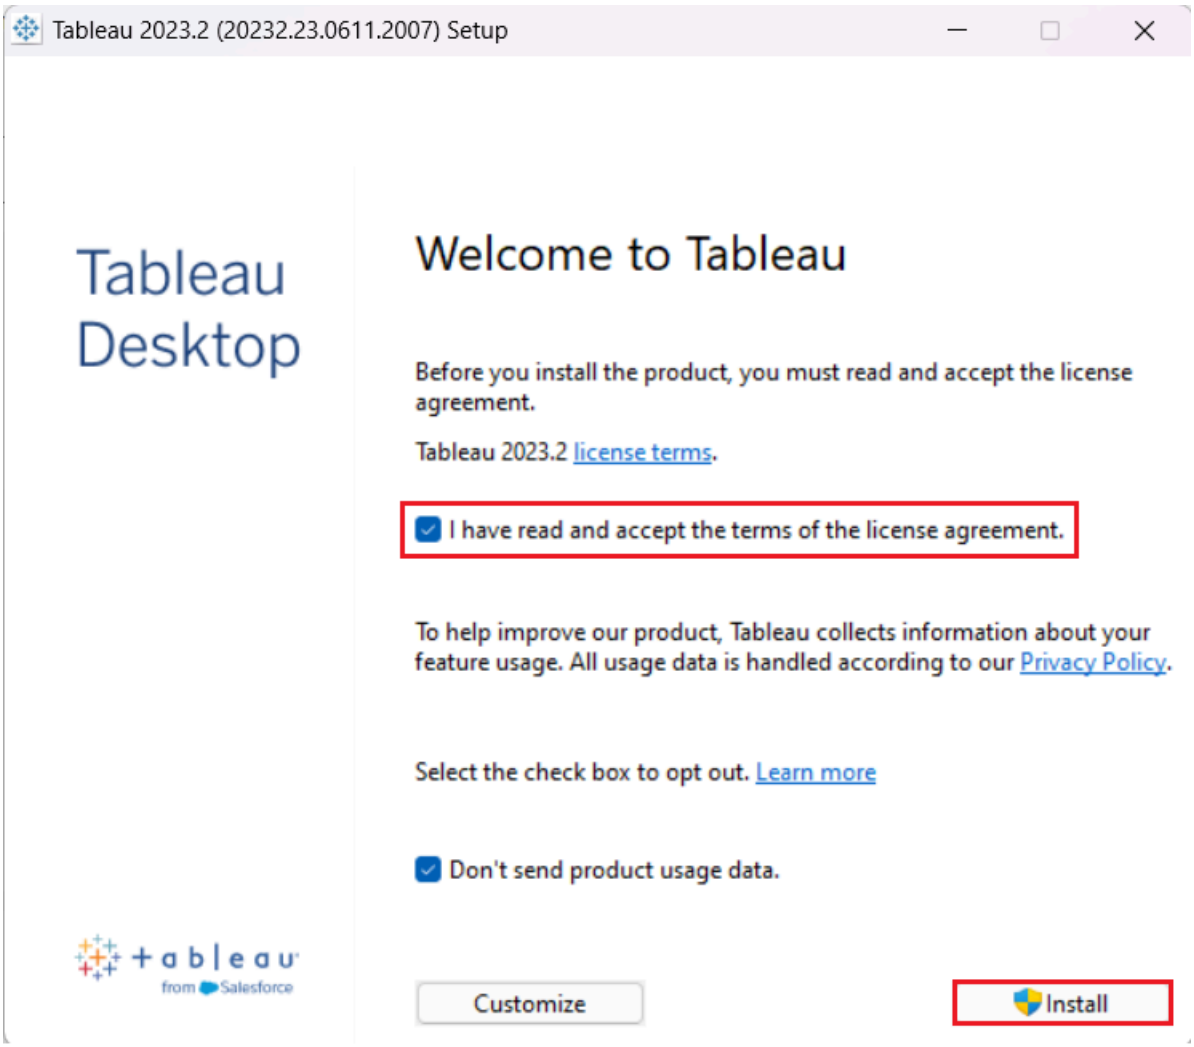

- After this you will be taken to a new page where you will click on Download Free Trial.

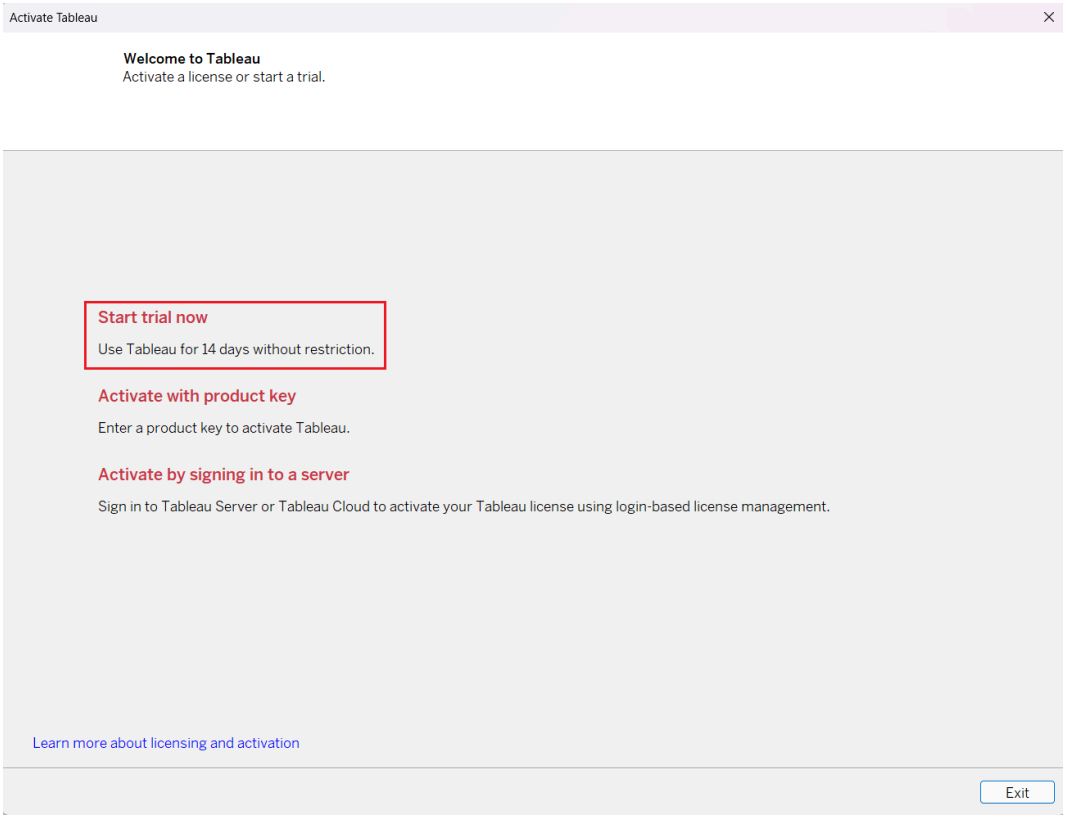

- After this your download will start.

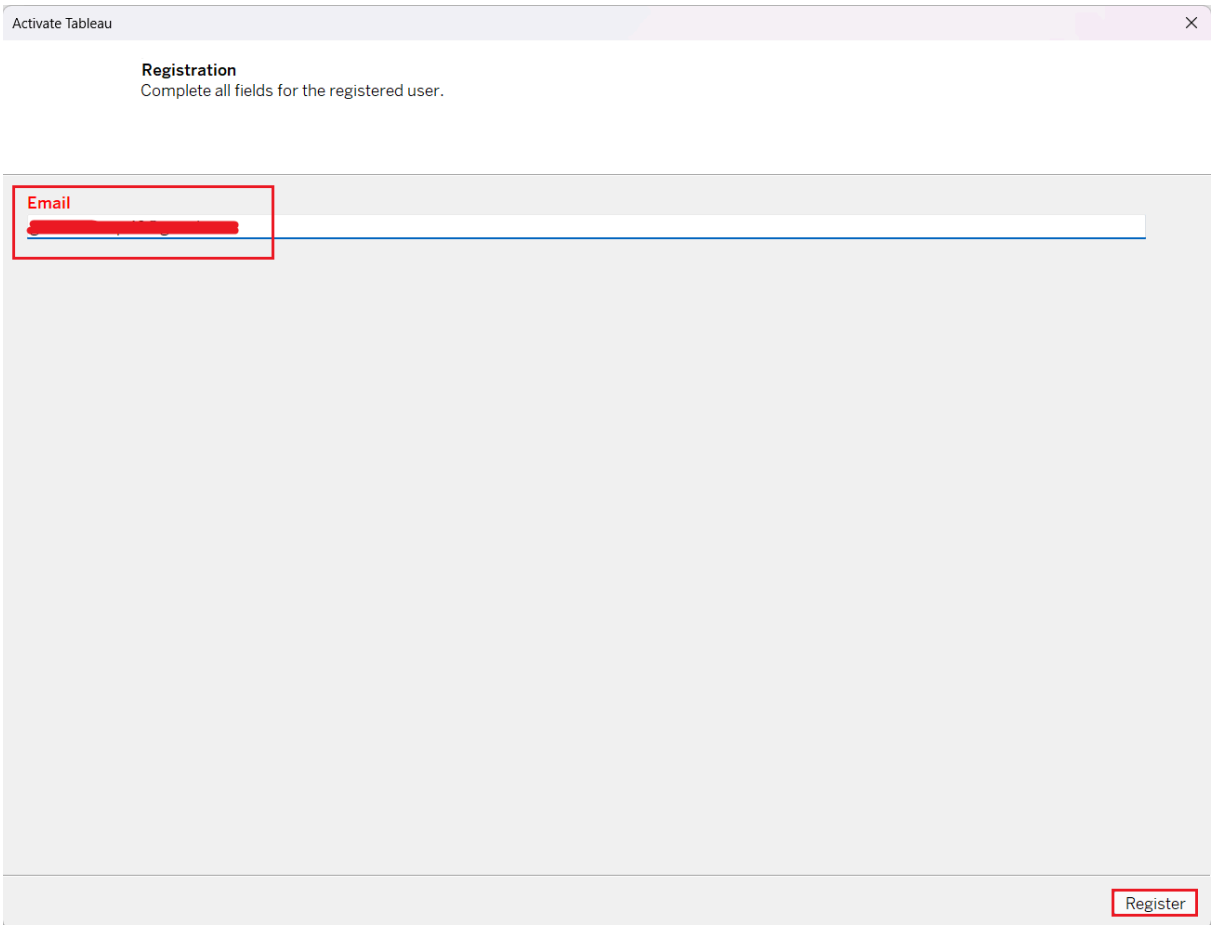

- After the download is complete go to your Downloads folder or to any other folder where the file is downloaded. Double click on the installer file to install. Follow on screen instructions to install it.

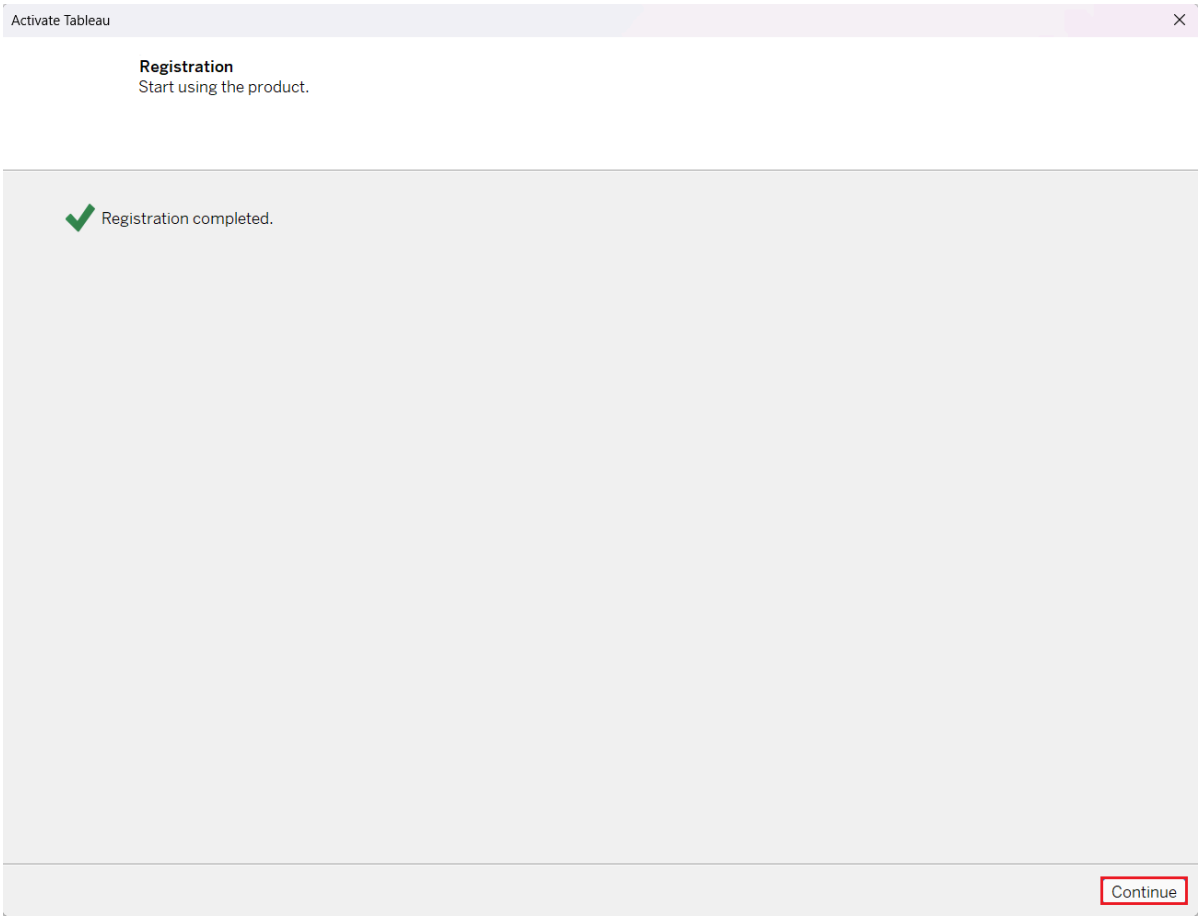

- After the installation is successful, the application will open and then click on Start trial now.

- Then enter your email id and click on Register.

- Then click on Continue.

YOU HAVSUCCESSFULLY CONFIGURED TABLEAU DESKTOP
